

## Christmas in Cathedral Square Craft Market Chalet Information

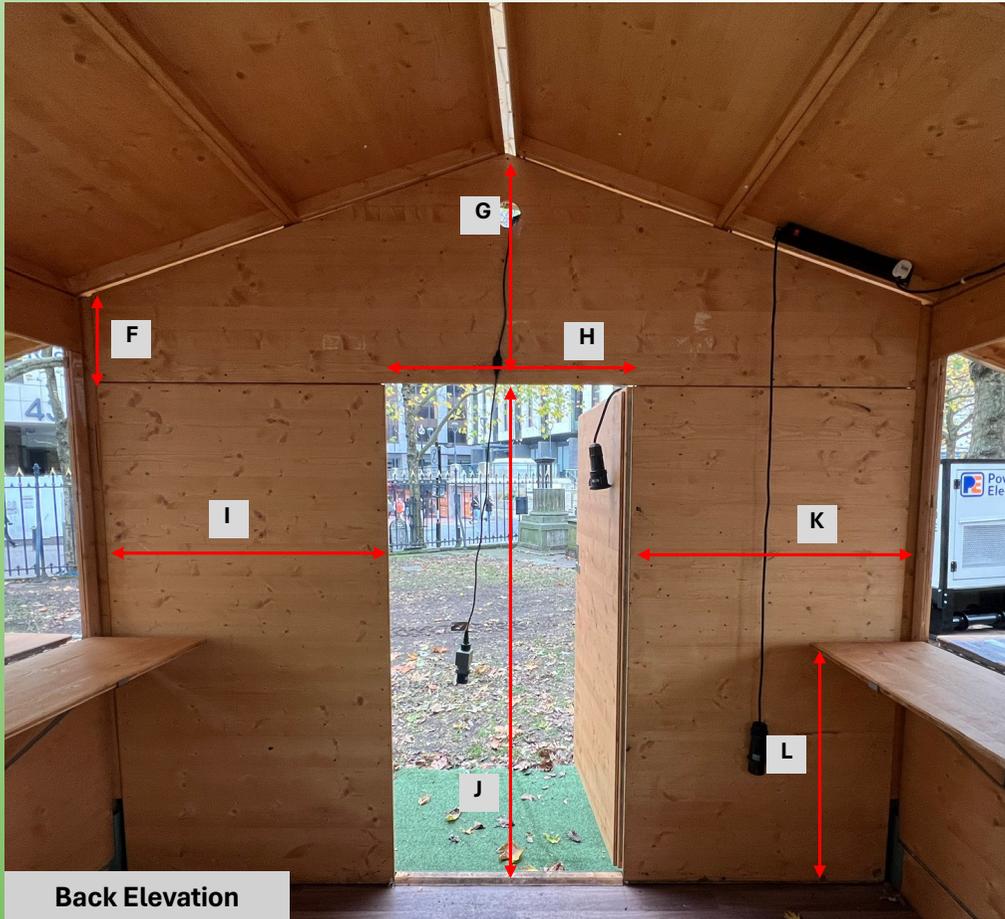

### Chalet Type 1 - Rectangular

Main Serving Hatch	Side Serving Hatch	Display Shelf
Length A – 2.81m	Length C – 1.70m	Length D – 0.90m
Length B – 0.95m	Length - B - 0.95m	Length E – 0.44m

The height of the main display shelf varies across the entire site as the chalets are not positioned onto level ground. The installed height of any chalet will be governed by the highest point across the footprint at ground level. Adjustments to the position or height of each chalet is not possible.

## Christmas in Cathedral Square Craft Market Chalet Information Chalet Type 1 - Rectangular

### Back Elevation

Length F – 0.19m

Length G – 0.74m

Length H – 0.85m

Length I – 1.00m

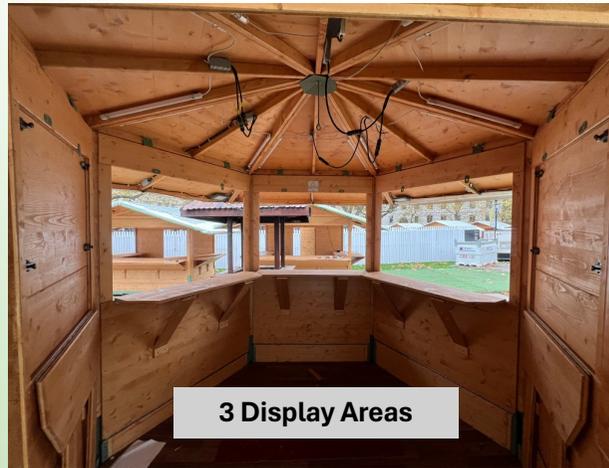

Length J – 1.82m

Length K – 1.00m

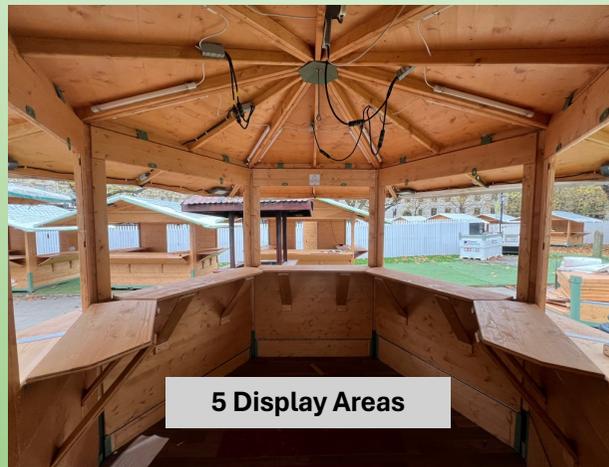

Length L - 0.94m

## Christmas in Cathedral Square Craft Market Chalet Information

### Chalet Type 2 - Hexagonal

Display Window
Length L – 0.84m
Length M – 1.15m
Internal Shelf Depth – 0.31m
Internal Shelf top to floor – 0.99m
External Shelf Depth – 0.40m

If you decide to trade with only 3 display windows you will need to consider how you will decorate / display internally on the 2 closed display windows.

The external height of the main display shelf varies across the entire site as the chalets are not positioned onto level ground. The installed height of any chalet will be governed by the highest point across the footprint at ground level. Adjustments to the position or height of each chalet is not possible.

## Christmas in Cathedral Square Craft Market Chalet Information Chalet Latch and Padlock

No1 – external latch on chalet door

No 2 & No 3 – robust padlock – recommended combination lock or key

No 4 – padlock previously used – not ideal

No 5 & No 6 – internal latch – used to open/close door

## Christmas in Cathedral Square Craft Market Chalet Information

**External Dressing/Branding** – examples of what will be permitted. The apex on the rectangular chalets and 1 side panel on the hexagonal chalets are **not** to be used as this space is for the market brand.

Screws, nails, staples and glue are not to be used to affix your dressing and branding to any part of the chalets. Only tape that doesn't leave a sticky residue can be used, along with Velcro and picture hanging strips.

**External Dressing/Branding** – on the rectangular chalets you can add branding to the side as long it remains within roof footprint.

**Internal Dressing/Branding** – examples of what will be permitted on the back wall of the chalet

## Christmas in Cathedral Square Craft Market Chalet Information

Dressing the internal panels really makes a difference so please do your utmost to go the extra mile.
